8th Gate: December 6, 2021 23°37' Capricorn - *Reclaim the Cosmic Portal*

Venus stations Retrograde: December 19, 2021 26°29' Capricorn

TRANSFORMATION

Venus Rx enters Underworld: January 2, 2022 22°22' Capricorn

Venus Rx cj Sun: January 8, 2022 18°43' Capricorn

Venus Rx Rises as Morning Star: January 15, 2022 15°04' Capricorn

You will notice eight gates in both the Morning Star and the Evening Star phases.

These represent conjunctions with the crescent moon (we don't include the conjunctions Venus makes while moving retrograde). Ordinarily there are seven, but this cycle has eight in both the morning and the evening sky! This accounts in part for the extraordinary power of this Venus Cycle.

But we can look farther to 2020 to really understand the power of this Venus Cycle.

We all experienced the once-in-a-lifetime moment of 2020, and most of us remember the triple conjunction that defined it. The last time Jupiter, Saturn, and Pluto aligned within 5 degrees of each other was in 1285 AD! Conjunctions represent birth points – beginnings, and the Venus Cycle which began in June 2020 represents the embodiment, growth-testing, and transformational vestment of the archetypal power and intentions of that rare triple conjunction.

If you have natal points aligned with (conjunct) any of the key points in the Venus Timeline, these will reveal more about your own personal activation during this cycle. The most important points would be the two times when Venus was aligned exactly conjunct the Sun: at the beginning of the cycle at 13°35' Gemini and at the heart of the Underworld phase at 5°50' Aries. But all alignments with points during the cycle have information which can help frame the experience.

1st Gate Evening Star (May 12, 2021)
